EDUCATION

Izmir Katip Celebi University | Mechatronics Engineering | 2022 - Present

Fourth-year undergraduate in a degree program taught entirely in English.

Eskisehir Osmangazi University | Architecture | 2021

Left the program after the first academic year.

TECHNICAL PROJECTS

[AdaPOS](#) | Flutter, Dart, Firebase | 2025

Developed a restaurant management application for tracking tables, menus, orders, and payments. Added real-time data synchronization with Firestore, staff management, and sales reporting.

[Tiny11 GUI](#) | C#, WPF, PowerShell | 2025

Built a C# and WPF desktop interface for the Tiny11 script to customize Windows 11 ISO images. Enabled users to manage app removal and customize installation requirements through the interface.

DetayStudioAuto | Python, Batch | 2023

Automated photo studio archiving, file submission for printing, and photographer performance tracking with scripts. Added a Python graphical interface to simplify daily use.

Gorleak | Python, SQLite | 2024

Identified an unprotected path exposing media files on a restricted-access website. Built a Python and SQLite tool to track new files daily, prevent duplicate records, and organize files by discovery date.

EXPERIENCE

SMS Savunma Sanayi | Intern | 2024

Voluntarily extended a mandatory manufacturing internship. After the manufacturing placement, participated in reverse engineering work in the electronics department.

Ege Port Crew Shop | Sales Advisor | Summer 2026

Provided product information and sales support in English to international customers.

Detay Photography | Photographer and Sales Advisor | 2022 - 2024

Worked in tourism, prom, and venue photography, alongside sales advisory duties. Developed automation tools for the studio's file organization and archiving workflows.

TECHNICAL SKILLS AND LANGUAGE

Programming: C, C#, Python, Dart, SQL

Technologies: Flutter, WPF, Firebase, AWS Lambda

Tools: Git, Linux command line (basic), SolidWorks, Proteus

English: Degree taught entirely in English; practical experience working with international customers.

COURSES

[CS50: Introduction to Computer Science](#) | Harvard University / edX

Completed the introductory computer science course.
